Phone: 684-633-2304  
Fax: 684-633-5801  
Website: <http://www.asepa.gov>

This training and certification workshop will provide contractors and inspectors with the knowledge and hands-on skills to ensure that land disturbing activities are in compliance with the American Samoa Water Quality Standards for erosion and sediment control.

The training includes a combination of classroom learning and field demonstration. A certification examination will take place at the end of the workshop and certificates will be issued upon successful completion.

Participants will be provided with reference materials to ensure compliance beyond the classroom.

Take advantage of this free training and certification!
